Good morning Lisa,

To be in-line with the previous response on the initial comment, does something like this work?:

(b) (5)

Thanks!

Kim

I think that the third comment response is not complete.

Do we want to send them all of the energy lines? Maybe we need to be specific about the progeny energy peaks and which compounds they represent?

Hi Kim – We added our responses to the comments. Please let me know if you need further explanation or want to discuss.

Thanks,
Lisa

Importance: High

EXTERNAL SENDER

Hi Lisa,

We received EPA comments on our most recent set of work plan RTCs and need a bit of help from you on a few. Please see the attached word file where I pared the comments down to just the ones we need your input on. If it's easier to just talk through them with me, that works, give me a call!

Thanks,

Kim Henderson, PG, LEED GA

Subject: [EXTERNAL] EPA Comments RE: HPNS Draft Final Parcel G Removal Site Evaluation Work Plan RTCs

Dear Paul,

Thank you for providing the attached RTCs on the HPNS Draft Final Parcel G Removal Site Evaluation Work Plan. Attached is EPA's review of these comments. Please note the following:

1. Because reference background sampling, which is outside Parcel G, is a priority, to avoid unnecessary delay of field work, EPA's initial review has focused on the portions of the RTCs relevant to that work. These are **highlighted in yellow** in the attachment. We have also made an effort to give preliminary comments now that also address the later work in Parcel G for soil and buildings. However, further comments about Parcel G work may be sent later to supplement this set of comments.
2. Because a revised document was not provided to EPA yet, we understand from an email from Derek Robinson on May 14, 2019, and from a verbal discussion at a Navy conference call the same day that the Navy will first review these EPA comments and then next provide pages of the revised Parcel G Work Plan text reflecting the incorporation of the RTCs. As we stated earlier, EPA will review the forthcoming revised text relevant to reference background to confirm resolution of comments and then consider partial approval of the Work Plan for soil reference background testing.

Please contact me at 415-947-4187 if you would like to discuss any of these comments further.

- Lily

Subject: HPNS Draft Final Parcel G Removal Site Evaluation Work Plan RTCs

BCT,

Please see attached RTCs on the HPNS Draft Final Parcel G Removal Site Evaluation Work Plan. The RTCs are in response to all comments received (December and April).

I am requesting a response by 5/21 to maintain the scheduled Final document distribution on 5/31.

Please let me know if you have any questions or if I can assist with walking through the responses.

Thank you!!

V/r,
